

FOR HOMEOWNERS WHOSE LISTING DIDN'T SELL

Why Did Your Listing Expire?

Your home was listed for sale — but it didn't sell. **Why?**

In most cases, the answer comes down to two major factors: **PRICE or CONDITION**. But there's more to successfully selling a home than simply putting a sign in the yard.

You also need the **right Realtor and the right real estate office** behind you.

At Your Realty Link, we look beyond the obvious. We can evaluate your previous listing, your pricing strategy, your home's condition and presentation, the marketing that was used, and how your property was positioned in the market.

Most importantly, we'll tell you **why your home didn't sell — and what needs to change to get it sold**.

Ready for a Fresh Start?

Let Your Realty Link take a fresh look at your home. **Call us today for a FREE tour of your home.** We'll walk through the property with you, give you an honest assessment, and explain what we believe kept your home from selling.

Your home deserves more than another listing. It deserves the right strategy, the right Realtor, and the right office behind it.

Your Realty Link — Let's make it happen.
